LED Light

Powered by an efficient AC motor, the Aspire's aluminium motor has been dip plated to ensure complete surface coverage (inside and out) with a clear lacquer applied for added longevity.

Tried and true AC motor technology with an AC silicone steel motor to provide the high torque and power needed to spin the aerodynamic aerofoil blades, for effective cooling when you need it.

Moulded aerodynamic blades are crafted from polymer (a high-grade plastic) which are durable, easy to clean as well as being safer and quieter than metal blades.

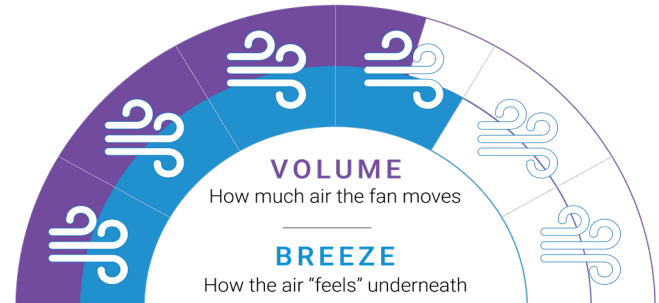

18W Dimmable LED Light Kit is available to add to the Aspire ceiling fan, for those times you need your ceiling fan to also be a light source.

Enjoy whisper-quiet cooling, thanks to the premium polymer blades, so you can relax and stay cool with less wind noise on those hot Australian days.

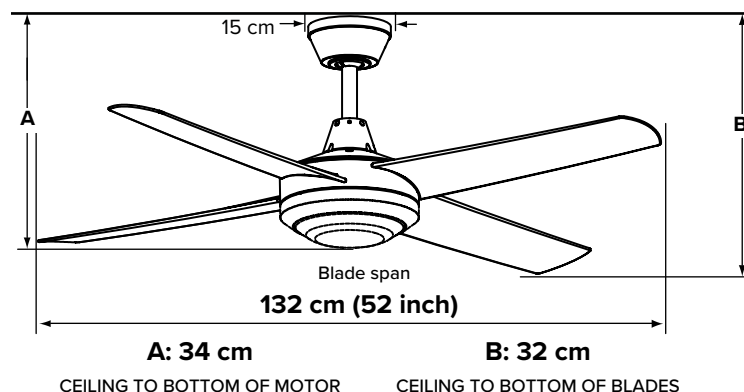

Perfect for both Indoor & Outdoors so you can maintain your decor style from your living room through to your alfresco outdoor area.

FAN PERFORMANCE

Fan Speed (H/M/L) (Revolutions Per Minute)	190 / 110 / 55 RPM
Energy usage (H/M/L) (Watts)	58 W / 22 W / 7 W
Airflow volume (H/M/L) (Cubic metres per hour)	11,200 / 7,500 / 3,300 CMH
Efficiency (H/M/L) (CMH / W)	165 / 281 / 417 CMH / W

Local Australian Support

Australian Owned & Operated, our friendly team provides a comprehensive 3 Year Onsite Warranty.
